This webinar will review the recent authorities on auditors' negligence and discuss the following issues in the context of an action that may be commenced by the liquidators against the auditors:-

- the essential elements of a claim in negligence against auditors;
- the types of losses that could be claimed;
- considerations applicable to different types of companies;
- defences available to the auditors;
- practical considerations such as costs, evidence gathering and time bar

The above issues will be discussed by way of case studies.
